Dear Mollye:—

Yeah, Yeah, . . . I know . . . it's  
about time I wrote you a letter.  
I can't make my excuses here . .  
or now . . . if I did, I'd run into  
censor trouble.

During the past trip I've been  
keeping a weather eye open for  
Wilmington boys. Met one fellow,  
whom you people do not know. Al-  
most caught up with Artie Blat-  
man . . . but not quite.

In regard to enclosed picture,  
well, the last time I was home, I  
noticed your office had pictures of  
the fellows in the services . . .  
somebody mentioned mine . . . so  
enclosed you will find a picture,  
to end all pictures. Is Mr. Alex  
(4-F) Levy around yet? Too bad  
he wasn't along this trip. He would  
have come in handy one time down  
in the Pacific. Being the social  
lion that he is, I could have used  
him at a dinner. Some very nice  
people I met down here hadn't had  
a good dinner of nice roast young  
man for a long time, and I'm quite  
sure Sonny would have been fine  
with an apple in his mouth and  
a few sprigs of parseley.

Well, that's about all for now.  
I'm feeling fine, healthy and the  
ship is still going strong. Re-  
gards to everyone and I'll be in  
to see you when I get home some  
day.

line or I'll cut his heart out and  
have it for lunch myself.

Dear Mollye:—

Just about one month ago I re-  
ceived a letter from you which you  
sent to Fort Eustis. Since then,  
I've been to C. C. N. Y. in New  
York and I am now stationed at  
Newark, Delaware where I am  
learning to become a Mechanical  
Engineer. It's o. k. being back at  
Delaware, but everything is so dif-  
ferent. It's just too hard to get  
used to. I always wanted to pic-  
ture the "ole Alma Mater" as it  
was when I left it, but, gee, has  
drastic changes taken place.

At the present time we are  
quarantined for five days which  
will just about "let me out" in time  
for my wedding. They wouldn't  
even give me a day or so extra.

Guess you know that "Sonny  
Schutzman is home. Well, no more  
now. Regards to Mr. Sollod, etc.

Byron Samonisky

Dear Mollye:—

By this time you've probably re-  
ceived my post card from Orlando.  
The following day I was in Savan-  
nah, here I met Florence Newstadt  
at a dance I attended, at the  
Jewish "Y" there. What a sur-  
prise. As I mentioned, on these  
trips, I was a student Navigator.  
Yesterday I was Navigator for a  
big ship going to Allentown, Pa.  
What a thrill Mollye, passing over  
Wilmington. At the Municipal  
Airport in Philly where we stop-  
ped to refuel, I called home. Were  
they surprised.

I'm "Nuts" about navigation.  
Sitting up in my little "cubby-  
hole" behind the pilot and directing  
the course of the plane as it flies  
along towards its destination . . .  
What a thrill! It isn't bad either.  
Every once in awhile the crew chief  
comes over and asks me "Where  
are we now, huh?" Every fifteen  
minutes the radio man call me for  
our latitude and longitude. If it  
isn't that, the pilot wants to know  
what time we'll pass over some  
little "jerk-water" town.

Who knows, maybe someday in  
the near future I might find my-  
self flying over Tokio. I've got  
my fingers crossed. Received a  
copy of the Recorder today. Cer-  
tainly is swell being able to find  
out where all the fellows are and  
how they're doing. I guess this  
is about all for now from this neck  
of the woods. Regards to all.

Eli Greenfield

Dear Mollye:—

It looks as though I'll never run  
into any home town fellows. In  
your last letter, you gave me  
Ralph Biloon's address, remember?  
One day recently, I saw his ship  
come over the horizon. Was I ex-  
cited. I sent a message by blinker  
light, only to find he was trans-  
ferred to other duty last week.  
So, no luck yet.

Received the March 12th Recor-  
der. Took quite a while to catch  
me. From the tone of some of  
the fellow's letters, I think they're  
in this area. Eddie Euster should  
be here somewhere. But, haven't  
heard of his outfit yet.

All for now, Mollye. Give my  
regards to Mr. Sollod and all the  
gang.

Dear Mollye:—

I haven't heard from Mendel  
since I've been here and I hope  
that everything will be okay as  
far as he's concerned. Let me

know just as soon as you hear  
from him. If he hasn't written  
lately I guess he's pretty busy  
doing more important work. Steady  
Mendel, squeeze the trigger and  
make every shot count. Hold on  
a little while, and I'll be over again  
to lay down a real barrage and  
clear the way for you doughboys.  
I bumped into Mendel in New Ca-  
ledonia . . . here's hoping our next  
meeting will be in Tokio, and then  
home so we can all be together  
for the wedding.

Just what are you going to do  
when all the boys' get back home.  
Ya know, we could really pitch  
some party at the "Y" for the  
boy's. What a night that will be.  
Four hundred of our boys at the  
"Y", and all at one time. What  
a grand reunion that will be. If  
the boys keep up the good work  
we'll be at that party before you  
know it.

Did I tell you that I've been go-  
ing to Jewish services every Sun-  
day. That really is tough because  
I have to get up at nine-thirty to  
be at services by then. Gosh!  
what a grand day Sunday is. I  
can sleep as long as I like and I  
don't have to sweep the floor, make  
up my bunk, etc., to prepare for  
the daily inspection.

Dear Mollye:—

I'm back at the University of  
Delaware as a P. F. C. I'm taking  
advanced Engineering and if the  
credits hold good, I may get a di-  
ploma. All students in advanced  
Engineering are supposed to hold  
their rank, but because I was an  
R. O. T. C. student, I was busted,  
or shall we say reduced. It was  
due to some sort of levelling pro-  
cess which affected all R. O. T. C.  
men in the country. It's not so  
bad . . . only deflated my ego a  
little.

All this stuff about ASTP being  
the Army of Occupation is pure  
"balogna". A memorandum was  
read to us from Washington, stat-  
ing that we were under the same  
enlistment terms as ordinary se-  
lectees. . Duration plus six months.

Going back to college isn't what  
its cracked up to be. You know,  
formations, march to classes, sched-  
uled study hours, and we're even  
allowed off from 10:00 to 10:30  
every night. It's not so bad on  
weekdays, we get off about 3:30  
P. M. on Saturday and have off  
'till 6:30 P. M. on Sunday. So, we  
spend a day at home. Regards to  
all.

There is nothing more to write. I sincerely hope this letter finds you well. Best regards to everyone.
