AIR CORPS TECHNICAL SCHOOL  
KEESLER FIELD, MISSISSIPPI

Dear Mollye

I know what you are thinking. Go ahead and say it, so I'm a stinker O.K. But honestly Mollye I wanted to write sooner, but never could get around to it.

As you see I'm at a new field, and believe me what a field it is. I could describe it in a few army slang sayings. But I believe it wiser not to. It is to my estimation a lousy place.

I'm here to go to school. Classes start Dec 9th, and last for 96 days. We are trained to be mechanics on four engine bombers. The course and army routine are both very tough. I guess ~~we~~ <sup>we</sup> live throughout tho, most all the other boys have.

Before I left ~~for~~, I went in to see Franky Walsh. He sure looks good!

Sat. I intend to go into our fair city here, and <sup>see</sup> what it is like. From what I gather

it is a wide open place. I'm sure I'll like it if what they say is true.

~~The town is Biloxi, and is situated right on the Gulf of Mexico. I've seen a few of the hotels, and they sure are nice.~~

Well Molly, that about covers everything up to date. I'll write again soon.

Regards to everyone.

Sure  
Eddie

New address

Cpl. Edward Roebrow  
305th Technical School G. G.  
Box Number 904  
Keesler Field Miss.

---

P.S. Sure made me happy to see Jack Schenkman go.
