

SERVICE SCHOOL
U. S. NAVAL TRAINING STATION
GREAT LAKES, ILLINOIS

[5/23/43]

Dear Mollie,

Received your letter upon returning to the station and this is really the first opportunity I have had to answer. I am now going to Medical School and although I like it, it is very hard at times. We're in classes from 8 A.M. to 4:30, then we have exercises for about an hr. thenchow; after that I am gone. We also must study an hr. in the evenings you can see we don't have much time to "kibitz" around, although every three weeks we get a 32 hr. liberty.

It was sure swell to see you and everybody else in Wilmington again even though it was only a short while, but I guess not in the too far distant future we will all be home again for keeps. Well Mollie there isn't much more to write so I'll end now with love.

Lovey love
Sid Stetman
