Dear Molly -

Well, I've a new address now -
so I have to write once - informing
you of the fact - in order to get
the "Recorder".

I'm well, and very busy. Seems
as though the game's in its last
innings, and our "pitchers" are really
bearing down.

I've been swimming a few times,
and the first few looks at the
underwater world are a thrill beyond
any description.

Very few natives or Japs on the
island, and that fact together with

the fact that we don't need mosquito-
netting constitutes the only difference
between here and India.

Let me know if we have any
Wilmingtonians on the island. The
only person I met from home is a
first brother from Wash. D.C.

Best of all - to all.

Jake.
