Dear Mollye:

I have a little time to myself at present so I'll take advantage of it to drop you a few lines. Glad to learn that Bertie is still alright and am sure will do okay on the beachhead when we have guys like him around. Say hello to him for me. Tell him I am holding up my end in this part of the theatre. I would like to hear from Mervel and the rest of the boys if possible, so if you are able, would appreciate this bit of information being passed on to them. I read an article in the stars and stripes about the bat that Ben Greenstein has. Felt good to see something about a Wilmingtoner in the Army paper. We Wilmington boys (yes, I still consider myself as such) really get around. I see Louis Strawn occasionally as he often comes up here. We always chat about the conversation between two Wilmingtonians would be complete without you being mentioned. I certainly appreciate your letters and hope they keep coming. Sincerely how is my kid cousin Willard. Thanks for the records. Love my family
Sincerely,
Sam
