UNITED STATES ARMY AIR FORCES
CHANUTE FIELD, ILLINOIS

Dear Molly,

Received the latest Recorder yesterday, also received a hat sent by the "Y"; thanks a lot for both.

It seems, from the letters in the recorder, that the boys are all over the state, and the world, and yet they meet up with each other somehow - Small World.

I don't have much to write, things are about the same with me here. Still going to school, in fact I won't be finished till late spring and I guess I'll be off again. From the way I've been traveling around it'll probably mean another long train ride. So help me, since I've been in the army it seems as if a high government official must have loads of stock in the railroads; if so the Air Corp. is a profitable venture for him. It seems like only yesterday I was sunbathing at West Palm Beach, and today I'm

trying to keep warm in Illinois.

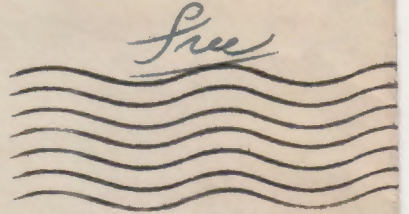

Well I guess that's all right now

Yours
